

NWAOFOR ANTHONY

Frontend Developer | Lagos state, Nigeria | nwaoforanthony@gmail.com

EXPERIENCE

Freelance | Frontend Developer |

December 2025 – Present

- Designed and built responsive websites for clients using modern technologies like React and Tailwind CSS.
- Optimized web performance and accessibility to improve user engagement and site functionality.

Lead Web Developer | Kiyoset Code |

November 2024 – December 2025

- Led the design and implementation of high-performing, interactive web interfaces with React and Next.js technologies, achieving 30% faster page load times.
- Mentored frontend engineers in code reviews and architecture discussions to ensure clean code, best practices, and good use of Tailwind CSS and state management.
- Worked directly with design and backend teams in architecting and deploying highly scalable component libraries, reducing frontend development cycle time for new features by 20%.

Computer science intern | Joshmit Technologies |

April 2024 – October 2024

- Mentored students in modern frontend development, providing hands-on guidance in HTML, CSS & JS, to help them build responsive and functional web interfaces.
 - Prepared portfolio design for more than 23 clients.
 - Introduced to web development, and made my first portfolio.
